## ANNEX III

(Annex VII of the Agreement referred to in Article 99 of the Agreement)

**SCHEDULE OF SPECIFIC COMMITMENTS ON SERVICES**

## PART A

**COMMUNITY'S SCHEDULE****Introductory note**

1. The specific commitments in this schedule apply only to the territories in which the Treaties establishing the Community are applied and under the conditions laid down in these Treaties. These commitments apply only to the relations between the Community and its Member States on the one hand, and non-Community countries on the other. They do not affect the rights and obligations of Member States arising from Community law.
2. The following abbreviations are used to indicate the Member States:

AT	Austria
BE	Belgium
BG	Bulgaria
CY	Cyprus
CZ	Czech Republic
DE	Germany
DK	Denmark
ES	Spain
EE	Estonia
FR	France
FI	Finland
EL	Greece
HU	Hungary
IT	Italy
IE	Ireland
LU	Luxembourg
LT	Lithuania
LV	Latvia
MT	Malta
NL	The Netherlands
PT	Portugal
PL	Poland
RO	Romania
SE	Sweden
SI	Slovenia
SK	Slovakia
UK	United Kingdom

3. A glossary of terms used by individual Member States is attached to this schedule.

'Subsidiary' of a legal person means a legal person which is effectively controlled by another legal person.

'Branch' of a legal person means a place of business not having legal personality which has the appearance of permanency, such as the extension of a parent body, has a management and is materially equipped to negotiate business with third parties so that the latter, although knowing that there will if necessary be a legal link with the parent body, the head office of which is abroad, do not have to deal directly with such parent body but may transact business at the place of business constituting the extension.

## I. HORIZONTAL COMMITMENTS

ALL SECTORS INCLUDED IN THIS SCHEDULE			
	<p>(3) In all Member States <sup>(1)</sup> services considered as public utilities at a national or local level may be subject to public monopolies or to exclusive rights granted to private operators <sup>(2)</sup>.</p>	<p>(3) (a) treatment accorded to subsidiaries (of Chilean companies) formed in accordance with the law of a Member State and having their registered office, central administration or principal place of business within the Community is not extended to branches or agencies established in a Member State by a Chilean company. However, this does not prevent a Member State from extending this treatment to branches or agencies established in another Member State by a Chilean company or firm, as regards their operation in the first Member State's territory, unless such extension is explicitly prohibited by Community law.</p> <p>(b) treatment less favourable may be accorded to subsidiaries (of Chilean companies) formed in accordance with the law of a Member State which have only their registered office or central administration in the territory of the Community, unless it can be shown that they possess an effective and continuous link with the economy of one of the Member States.</p> <p>Formation of legal entity</p> <p>(3) RO: the sole administrator or the Chairman of the Board of Administration as well as half of a total number of administrators of a commercial company shall be Romanian citizens unless otherwise stipulated in the company contract or in its statutes. The majority of the commercial company's auditors and their deputies shall be Romanian citizens.</p> <p>SE: a limited liability company (joint-stock company) may be established by one or several founders. A founding party shall either reside within the EEA (European Economic Area) or be an EEA legal entity. A partnership can only be a founding party if each partner resides within the EEA <sup>(3)</sup>. Corresponding conditions prevail for establishment of all other types of legal entities.</p>	

<sup>(1)</sup> In the case of Austria, Finland and Sweden no horizontal reservation has been taken for services considered as public utilities.

<sup>(2)</sup> Explanatory note: public utilities exist in sectors such as related scientific and technical consulting services, R&D services on social sciences and humanities, technical testing and analysis services, environmental services, health services, transport services and services auxiliary to all modes of transport. Exclusive rights on such services are often granted to private operators, for instance operators with concessions from public authorities, subject to specific service obligations. Given that public utilities often also exist at the sub-central level, detailed and exhaustive sector-specific scheduling is not practical.

<sup>(3)</sup> Exceptions from these requirements may be granted, if it can be proved that residency is not necessary.

CY: the permission of the Central Bank is required for the participation of any non-resident in a corporate body or partnership in Cyprus. Foreign participation in all sectors/subsectors included in the Schedule of Commitments is normally limited up to 49 per cent. The decision of the authorities to grant permission for foreign participation is based on an economic needs test, for which the following criteria are used in general:

- (a) provision of services which are new to Cyprus;
- (b) promotion of the export orientation of the economy with development of existing and new markets;
- (c) transfer of modern technology, know-how and new management techniques;
- (d) improvement either of the productive structure of the economy or of the quality of existing products and services;
- (e) complementary impact on existing units or activities;
- (f) viability of proposed project;
- (g) creation of new job opportunities for scientists, qualitative improvement and training of local staff.

In exceptional cases, in which a proposed investment satisfies most of the economic needs test criteria to a large extent, permission for foreign participation exceeding 49 per cent may be granted.

In the case of public companies, foreign equity participation is normally allowed to the extent of up to 30 per cent. In Mutual Funds the extent of allowable foreign ownership is 40 per cent.

Corporate bodies have to be registered under the Companies Law. Same Law requires that a foreign company wishing to establish a place of business or an office in Cyprus must register it as a foreign branch. For the registration the prior approval of the Central Bank is required under the Exchange Control Law. Such approval is subject to the foreign investment policy applicable at the time with regard to the Corporate Body's proposed activities in Cyprus and the general investment criteria stipulated above.

(2)	Telecommunications services		

Telecommunications services are the transport of electro-magnetic signals — sound, data image and any combinations thereof, excluding broadcasting <sup>(1)</sup>. Therefore, commitments in this schedule do not cover the economic activity consisting of content provision which require telecommunications services for its transport. The provision of that content, transported via a telecommunications service, is subject to the specific commitments undertaken by the Community and its Member States in other relevant sectors.

BG: measures applicable to all sectors in communication services:

1. The setting up of public or private telecommunications networks is subject to licensing. All services have to be provided over licensed networks or over leased lines as part of licensed networks. Licences are issued by a Bulgarian authorised body to the applicant personally and cannot be transferred to a third party. Simple resale of telecommunication services is not permitted.
2. The connection to a public network is permitted according to the licence conditions for the public network and depending on technical possibilities. Terminal equipment intended for direct or indirect connection to a public or private telecommunications network can be connected to a network termination point if it is assessed for conformity with essential requirements.
3. Natural and juridical persons exercising statistical activity and setting up information systems are to use concepts, nomenclatures and classifications which are compatible with those established by the National Statistical Institute.

Domestic and international Domestic and international services provided using any network technology, on a facilities based or resale basis, for public and non-public use, in the following market segments (these correspond to the following CPC numbers: 7521, 7522, 7523, 7524 (*), 7525, 7526 and 7529 (*), broadcasting is excluded): ALL SECTORS	<p>BG: the installation and usage of telecommunication equipment and networks and the provision of telecommunication services require a concession, licence, permission or registration from a Bulgarian authorised body.</p> <p>The number of licences may be limited depending on the availability of scarce resources and for technical reasons (numbering capacity, temporary lack of access points).</p> <p>*BTC LTD — Bulgarian Telecommunications company LTD.</p> <p>RO: licenses and permissions are granted only to entities with Romanian juridical personality established according to Romanian legislation.</p> <p>Only Romanian Signatories have the right to links with International Satellite Organizations.</p>		<p>BG: as annexed.</p> <p>RO: as attached.</p> <p>Network operations and services supply require licences or permissions issued by the regulatory authority.</p> <p>Licensing conditions, for all subsectors, may provide for the application of the universal service principles as defined by the regulatory authority.</p>

## Definitions Concerning Maritime Transport

1. Without prejudice to the scope of activities which may be considered as 'cabotage' under the relevant national legislation, this schedule does not include 'maritime cabotage services', which are assumed to cover transportation of passengers or goods between a port located in a Member State and another port located in the same Member State and traffic originating and terminating in the same port located in a Member State provided that this traffic remains within this Member State's territorial waters.
2. 'Other forms of commercial presence for the supply of international maritime transport services' means the ability of international maritime transport service suppliers of the other Party to undertake locally all activities which are necessary for the supply to their customers of a partially or fully integrated transport service within which the maritime transport constitutes a substantial element. (This commitment shall not, however, be construed as limiting in any manner the commitments undertaken under the cross-border mode of delivery).

These activities include, but are not limited to:

- (a) marketing and sales of maritime transport and related services through direct contact with customers, from quotation to invoicing, these services being those operated or offered by the service supplier itself or by service suppliers with which the service seller has established standing business arrangements;
  - (b) the acquisition, on their own account or on behalf of their customers (and the resale to their customers) of any transport and related services, including inward transport services by any mode, particularly inland waterways, road and rail, necessary for the supply of the integrated services;
  - (c) the preparation of documentation concerning transport documents, customs documents, or other documents related to the origin and character of the goods transported;
  - (d) the provision of business information by any means, including computerised information systems and electronic data interchange (subject to the provisions of this Agreement);
  - (e) the setting up of any business arrangements (including participation in the stock of a company) and the appointment of personnel recruited locally (or, in the case of foreign personnel, subject to the horizontal commitment on movement of personnel) with any locally established shipping agency;
  - (f) acting on behalf of the companies, organising the call of the ship or taking over cargoes when required.
3. 'Multimodal transport operators' means the person on whose behalf the bill of lading/multimodal transport document, or any other document evidencing a contract of multimodal carriage of goods, is issued and who is responsible for the carriage of goods pursuant to the contract of carriage.

'Subsidiary' of a legal person means a legal person which is effectively controlled by another legal person.

'Branch' of a legal person means a place of business not having legal personality which has the appearance of permanency, such as the extension of a parent body, has a management and is materially equipped to negotiate business with third parties so that the latter, although knowing that there will if necessary be a legal link with the parent body, the head office of which is abroad, do not have to deal directly with such parent body but may transact business at the place of business constituting the extension.

## I. HORIZONTAL COMMITMENTS

ALL SECTORS INCLUDED IN THIS SCHEDULE			
	<p>(3) In all Member States <sup>(1)</sup> services considered as public utilities at a national or local level may be subject to public monopolies or to exclusive rights granted to private operators <sup>(2)</sup>.</p>	<p>(3) (a) Treatment accorded to subsidiaries (of Chilean companies) formed in accordance with the law of a Member State and having their registered office, central administration or principal place of business within the Community is not extended to branches or agencies established in a Member State by a Chilean company. However, this does not prevent a Member State from extending this treatment to branches or agencies established in another Member State by a Chilean company or firm, as regards their operation in the first Member State's territory, unless such extension is explicitly prohibited by Community law.</p> <p>b) Treatment less favourable may be accorded to subsidiaries (of Chilean companies) formed in accordance with the law of a Member State which have only their registered office or central administration in the territory of the Community, unless it can be shown that they possess an effective and continuous link with the economy of one of the Member States.</p> <p>Formation of legal entity</p> <p>(3) RO: the sole administrator or the Chairman of the Board of Administration as well as half of the total number of administrators of the commercial companies shall be Romanian citizens unless otherwise stipulated in the company contract or in its statutes. The majority of the commercial companies' auditors and their deputies shall be Romanian citizens.</p> <p>SE: a limited liability company (joint-stock company) may be established by one or several founders. A founding Party shall either reside within the EEA (European Economic Area) or be an EEA legal entity. A partnership can only be a founding Party if each partner resides within the EEA <sup>(3)</sup>. Corresponding conditions prevail for establishment of all other types of legal entities.</p>	

<sup>(1)</sup> In the case of Austria, Finland and Sweden no horizontal reservation has been taken for services considered as public utilities.

<sup>(2)</sup> Explanatory note: public utilities exist in sectors such as related scientific and technical consulting services, R&D services on social sciences and humanities, technical testing and analysis services, environmental services, health services, transport services and services auxiliary to all modes of transport. Exclusive rights on such services are often granted to private operators, for instance operators with concessions from public authorities, subject to specific service obligations. Given that public utilities often also exist at the sub-central level, detailed and exhaustive sector-specific scheduling is not practical.

<sup>(3)</sup> Exceptions from these requirements may be granted, if it can be proved that residency is not necessary.

## I. HORIZONTAL COMMITMENTS

ALL SECTORS INCLUDED IN THIS SCHEDULE

Law on foreign companies' branches

- (3) SE: a foreign company (which has not established a legal entity in Sweden) shall conduct its commercial operations through a branch, established in Sweden with independent management and separate accounts.  
SE: building projects with a duration of less than a year are exempted from the requirements of establishing a branch or appointing a resident representative.

Legal entities:

- (3) BG: the establishment of foreign service suppliers, joint ventures included, may only take the form of limited liability company or joint-stock company with at least two shareholders. Establishment of branches is subject to authorisation. Unbound for representative offices. Representative offices may not engage in economic activity. In enterprises where the public (State or municipal) share in the equity capital exceeds 30 per cent, the transfer of these shares to third parties needs authorisation.  
FI: acquisition of shares by foreign owners giving more than one third of the voting rights of a major Finnish company or a major business undertaking (with more than 1 000 employees or with a turnover exceeding 1 000 million Finnish markka or with a balance sheet total exceeding EUR 167 million) is subject to confirmation by the Finnish authorities; the confirmation may be denied only if an important national interest would be jeopardised.  
FI: at least half of the founders of a limited company need to be resident either in Finland or in one of the other EEA (European Economic Area) countries. Company exemptions may, however, be granted.  
HU: commercial presence should take the form of limited liability company, joint-stock company, or representative office. Initial entry as branch is not permitted.  
PL: the establishment by foreign service suppliers may only take the form of limited partnership, limited liability company or joint-stock company.

Law on foreign companies' branches

- (3) SE: the managing director and at least 50 per cent of the members of the board shall reside within the EEA (European Economic Area).  
SE: the managing director of a branch shall reside within the EEA (European Economic Area) <sup>(1)</sup>.  
SE: foreign or Swedish citizens not residing in Sweden, who wish to conduct commercial operations in Sweden, shall appoint and register with the local authority a resident representative responsible for such activities.  
SI: the establishment of branches by foreign companies is conditioned with the registration of the parent company in a court register in the country of origin for at least one year.  
FI: a foreigner living outside the European Economic Area and carrying on a trade as a private entrepreneur or as a partner in a Finnish limited or general partnership needs a trade permit. If a foreign organisation or foundation which is resident outside the European Economic Area intends to carry on a business or trade by establishing a branch in Finland, a trade permit is required.  
FI: if at least half of the members of the Board or the Managing Director are resident outside the European Economic Area, permission is required. Company exemptions may, however, be granted.  
SK: a foreign natural person whose name is to be registered in the Commercial Register as a person authorised to act on behalf of the entrepreneur is required to submit residence permit for the Slovak Republic.

<sup>(1)</sup> Exceptions from these requirements may be granted, if it can be proved that residency is not necessary.

### UNDERSTANDING ON COMMITMENTS IN FINANCIAL SERVICES

The Community has been enabled to take on specific commitments with respect to financial services under this Agreement on the basis of an alternative approach to that covered by the general provisions of Part IV, Chapter II (Financial services). It was agreed that this approach could be applied subject to the following understanding:

- (i) it does not conflict with the provisions of this Agreement;
- (ii) no presumption has been created as to the degree of liberalisation to which a Party is committing itself under this Agreement.

The Community, on the basis of negotiations, and subject to conditions and qualifications where specified, has inscribed in its schedule specific commitments conforming to the approach set out below.

#### A. Market access

##### *Cross-border trade*

1. The Community shall permit non-resident suppliers of financial services to supply, as a principal, through an intermediary or as an intermediary, and under terms and conditions that accord national treatment, the following services:
  - (a) insurance of risks relating to:
    - (i) maritime shipping and commercial aviation and space launching and freight (including satellites), with such insurance to cover any or all of the following: the goods being transported, the vehicle transporting the goods and any liability arising therefrom; and
    - (ii) goods in international transit.
  - (b) reinsurance and retrocession and the services auxiliary to insurance as referred to in subparagraph (iv) of Article 117(9);
  - (c) provision and transfer of financial information and financial data processing as referred to in subparagraph (xv) of Article 117(9) and advisory and other auxiliary services, excluding intermediation, relating to banking and other financial services as referred to in subparagraph (xvi) of Article 117(9).
2. The Community shall permit its residents to purchase in the territory of Chile the financial services indicated in:
  - (a) subparagraph 1(a);
  - (b) subparagraph 1(b); and
  - (c) subparagraphs (v) to (xvi) of Article 117(9).

##### *Commercial presence*

3. The Community shall grant financial service suppliers of Chile the right to establish or expand within its territory, including through the acquisition of existing enterprises, a commercial presence.
4. The Community may impose terms, conditions and procedures for authorisation of the establishment and expansion of a commercial presence insofar as they do not circumvent its obligation under Paragraph 3 and they are consistent with the other obligations of this Agreement.

##### *Temporary entry of personnel*

5. (a) The Community shall permit temporary entry into its territory of the following personnel of a financial service supplier of Chile that is establishing or has established a commercial presence in the territory of the Community:
  - (i) senior managerial personnel possessing proprietary information essential to the establishment, control and operation of the services of the financial service supplier; and
  - (ii) specialists in the operation of the financial service supplier.

- (b) The Community shall permit, subject to the availability of qualified personnel in its territory, temporary entry into its territory of the following personnel associated with a commercial presence of a financial service supplier of Chile:
- (i) specialists in computer services, telecommunication services and accounts of the financial service supplier; and
  - (ii) actuarial and legal specialists.

*Non-discriminatory measures*

6. The Community shall endeavour to remove or to limit any significant adverse effects on financial service suppliers of Chile of:
- (a) non-discriminatory measures that prevent financial service suppliers from offering in the Community's territory, in the form determined by the Community, all the financial services permitted by the Community;
  - (b) non-discriminatory measures that limit the expansion of the activities of financial service suppliers into the entire territory of the Community;
  - (c) measures of the Community, when it applies the same measures to the supply of both banking and securities services, and a financial service supplier of Chile concentrates its activities in the provision of securities services; and
  - (d) other measures that, although respecting the provisions of this Agreement, affect adversely the ability of financial service suppliers of Chile to operate, compete or enter the Community's market.

provided that any action taken under this paragraph would not unfairly discriminate against financial service suppliers of the Party taking such action.

7. With respect to the non-discriminatory measures referred to in subparagraphs 6(a) and (b), the Community shall endeavour not to limit or restrict the present degree of market opportunities nor the benefits already enjoyed by financial service suppliers of Chile as a class in the territory of the Community, provided that this commitment does not result in unfair discrimination against financial service suppliers of the Community.

**B. National treatment**

1. Under terms and conditions that accord national treatment, the Community shall grant to financial service suppliers of Chile established in its territory access to payment and clearing systems operated by public entities, and to official funding and refinancing facilities available in the normal course of ordinary business. This paragraph is not intended to confer access to the Community's lender of last resort facilities.
2. When membership or participation in, or access to, any self-regulatory body, securities or futures exchange or market, clearing agency, or any other organisation or association, is required by the Community in order for financial service suppliers of Chile to supply financial services on an equal basis with financial service suppliers of the Community, or when the Community provides directly or indirectly such entities, privileges or advantages in supplying financial services, the Community shall ensure that such entities accord national treatment to Chilean financial service suppliers resident in its territory.

**C. Definitions**

For the purposes of this approach:

1. A non-resident supplier of financial services is a financial service supplier of Chile which supplies a financial service into the territory of the Community from an establishment located in the territory of Chile, regardless of whether such a financial service supplier has or has not a commercial presence in the territory of the Community.
2. 'Commercial presence' means an enterprise within the Community's territory for the supply of financial services and includes wholly- or partly-owned subsidiaries, joint ventures, partnerships, sole proprietorships, franchising operations, branches, agencies, representative offices or other organisations.

'Subsidiary' of a legal person means a legal person which is effectively controlled by another legal person.

'Branch' of a legal person means a place of business not having legal personality which has the appearance of permanency, such as the extension of a parent body, has a management and is materially equipped to negotiate business with third parties so that the latter, although knowing that there will if necessary be a legal link with the parent body, the head office of which is abroad, do not have to deal directly with such parent body but may transact business at the place of business constituting the extension.

<b>All sectors included in this schedule</b>	
	(a) Treatment accorded to subsidiaries (of Chilean companies) formed in accordance with the law of a Member State and having their registered office, central administration or principal place of business within the Community is not extended to branches or agencies established in a Member State by a Chilean company. However, this does not prevent a Member State from extending this treatment to branches or agencies established in another Member State by a Chilean company or firm, as regards their operation in the first Member State's territory, unless such extension is explicitly prohibited by Community law.
	(b) Treatment less favourable may be accorded to subsidiaries (of Chilean companies) formed in accordance with the law of a Member State which have only their registered office or central administration in the territory of the Community, unless it can be shown that they possess an effective and continuous link with the economy of one of the Member States.
